## Work Experience

### Zyneto Global Technology, Jaipur

React.js Developer

April 2024 - Present

Built dynamic, user-friendly web applications with React.js, creating smooth and engaging experiences. Worked closely with teams to deliver high-quality solutions for clients across different industries, ensuring performance, scalability, and clean, maintainable code.

### The NineHertz India Pvt. Ltd, Jaipur

Node.js Developer

March 2023 - April 2024

Spearheaded the development of server-side logic and APIs using Node.js, ensuring robust performance and scalability for various web applications.

## Projects

### UCC - Node.js

Developed a healthcare application using Node.js to streamline interactions between caregivers, users, and doctors. Designed role-based access and integrated RESTful APIs for seamless data flow between the front-end, back-end, and admin panel.

### Famepilot - React.js

Developed a React.js web application to manage and streamline data from multiple Google Business accounts. Designed an intuitive UI for easy data management and integrated the Google Business API for real-time updates across platforms.

## **Projects**

### **Chilling**

Chilling is a Roku-based project focused on designing and implementing key features like content listing. It enhances user experience by providing seamless content organization and efficient functionality for a smoother streaming experience

## **Education**

### **Bachelor of Computer Application - BCA**

University Of Technology, Jaipur
